DEVELOPMENT OF THE UNBORN BABY

Week 22 – My lungs are getting stronger and more developed. My arms and legs are getting bigger and stronger, too, and sometimes my Mom can feel them when I move.

Week 23 – 50 years ago, if I were born at this age, I could not have survived. But today, with modern technology, babies born at this age have a fighting chance (about 50%) at survival.

Week 24 – I'm starting to put on weight faster - I've gained about half a pound in the last few weeks! That's doubled my weight!

Week 25 - (about six months) – Thousands and thousands of brain cells are growing in my head every day! Soon I will have billions of brain cells!

We need a volunteer to help with the Christmas Play practice. You would only need to be at the church on Wednesday nights from 5:30-6:00 starting on September 15 and going until the play on December 15. If you are interested, please contact Sherry at 332-3369 or email shuntwork@msn.com.

There will be a Mass for grades 2-4 on September 22 at 6:05.

There will be a Confirmation Informational meeting on September 22 at 7:05 in the church and all Confirmation candidates and a parent need to attend.
